Multiple Choice Question Bank

[MCQ ] Term – I

English Core [301]

Based on Latest CBSE Exam Pattern for the Session 2021-22
MESSAGE FROM DUPUTY COMMISSIONER

It is a matter of great pleasure for me to publish study material for different subjects of classes X and XII for Raipur Region. Getting acquainted and familiarized with the recent changes in curriculum and assessment process made by CBSE vide Circular No. 51 and 53 issued in the month of July 2021 will help students to prepare themselves better for the examination. Sound and deeper knowledge of the Units and Chapters is must for grasping the concepts, understanding the questions. Study materials help in making suitable and effective notes for quick revision just before the examination.

Due to the unprecedented circumstances of COVID-19 pandemic the students and the teachers are getting very limited opportunity to interact face to face in the classes. In such a situation the supervised and especially prepared value points will help the students to develop their understanding and analytical skills together. The students will be benefitted immensely after going through the question bank and practice papers. The study materials will build a special bond and act as connecting link between the teachers and the students as both can undertake a guided and experiential learning simultaneously. It will help the students develop the habit of exploring and analyzing the Creative & Critical Thinking Skills. The new concepts introduced in the question pattern related to case study, reasoning and ascertain will empower the students to take independent decision on different situational problems. The different study materials are designed in such a manner to help the students in their self-learning pace. It emphasizes the great pedagogical dictum that ‘everything can be learnt but nothing can be taught’. The self-motivated learning as well as supervised classes will together help them achieve the new academic heights.

I would like to extend my sincere gratitude to all the principals and the teachers who have relentlessly striven for completion of the project of preparing study materials for all the subjects. Their enormous contribution in making this project successful is praiseworthy.

Happy learning and best of luck!

Passage – 1

Direction (Q-Nos.1-8) :Read the passage given below
In small town, there lived a beautiful family of five members including an old man who was the head of the family and his only son, daughter-in-law and two grandchildren. The family had not lot of fun and enjoyed life to the fullest. As a family, they always had dinner together, every day.

However, as days passed by, the health of the old gradually weakened. His vision become very poor, his hands and legs started trembling.

One day, while serving dinner, the old man whose legs and hands shivered and who couldn’t see properly split the food on the table. With his trembling hands, he wasn’t able to eat properly. He let the glass of milk fall on the table cloth. His son and daughter-in-law were completely annoyed, as he messed up the dinner. It was repeated for a next time as the old man couldn’t help himself. His son was irritated and his wife said, “I can’t bear this anyone. He spoils our dinner time. We should do something about it.” He agreed. Soon they set up a new table and chair in the corner of the hall and made him sit there to eat food. The old man wasn’t able to hold the glass or plate and he broke a few pieces of utensils. His son gave the old man a wooden bowl so it wouldn’t break. While the rest of the family seemed to enjoy their meals, the old man was in tears as he had to eat his food alone. The old man would often recollect happy memories of family and could barely tolerate his current situation.

Days passed and the old man died quietly. After his funeral, they were cleaning the house when his five-year-old grandson Vikram and his elder sister Zoya began to search for something. This was noticed by their father who asked his children. ‘What are you searching for?’ Zoya replied, “The wooden bowl in which grandpa ate food!” Curiously he asked, ‘But why?’ To which Zoya thoughtfully replied, ‘We want to preserve it in memory Grandpal!’ The children found the bowl and keep it in a safe place. Then Vikram asked his father, ‘Did can you buy one more bowl like this?’ Surprised by the question, he asked, ‘Why son?’ To this Zoya prompted replied, ‘See we have only bowl. When you and Momma get old, how will we feed you both with one bowl? So we want you to buy another one for Momma?’ The elders realised their mistake, but it was a bit late in the day.

Passage – 2

Direction (Q-Nos. 1-8): Read the passage given below

Mankind’s experience of various evolutionary changes from primitive times to the present day has been extensive and varied. However, man’s problems were never before as complicated as they seem to be today. Man’s economic activity centres primarily around factor of production; its role, therefore, has been given a lot of importance. It should be useful to have an overall view of the economic history of man – from the nomadic times to the modern factory system – and study its relevance to the various labour problems of today.

Initially, man passed through ‘the hunting and fishing stage’. During this period, his basic needs were adequately met by Nature. Wild animals, birds and fruits satisfied his hunger, and his thirst was quenched by the waters of springs and rivers. Caves gave him shelter and barks of trees were used as clothing. During this stage of man’s progress of the absence of any economic, political and social system.

Then came ‘the pastoral stage’, which was marked by a certain amount of economic activity. The nomadic and migratory nature of man persisted, and, together with his goats and cattle, he moved on to fresh pastures and meadows. Some conflicts would sometimes take place among herd owners, for, during this period, the institution of nominal private property ownership was not known.

This stage paves the way for ‘the agricultural stage’ during which the class system began to develop. There was a small artisan class mostly self-employed; and there were also landed properties or Zamindars as well as slaves. Thus, arose the feudal system. During the fourth stage of these developments, ‘the handicrafts stage’, a number of social and economic changes took place which marked the beginning of the labour problem in the world. The self-sufficient economy of the village underwent a drastic change. The community of traders and merchants emerged.
1. Humanity’s evolution from primitive stage to the present has been
   a) Static and smooth
   b) Huge and diversified
   c) Always violent
   d) Always peaceful

2. Man’s problem were never before as complicated as they seem to be today” means

   b) The present times are the crucial period for humanity
   c) The present times pose much more challenges to humans than the previous times
   d) The present times provide much more facilities than the previous times.

3. Why does the author say that labour problems did not exist during ‘the hunting and fishing stage’?
   a) There was no nation existing at that time
   b) There were no economic, political and social system
   c) There was no capitalism and market
   d) There was no labour

4. “The pastoral stage was marked by a certain amount of economic activity.” How?
   a) Humans started migrating and held goat-herds
   b) Humans started owning land
   c) Conflicts started as humans owned goats
   d) Humans started doing agriculture.

5. Which word in the passage means ‘surfaced’?
   a) Quenched
   b) Emerged
   c) Nomadic
   d) Adequately

6. What were the consequences of Feudal system?
   a) The handcrafters become very rich
   b) The handicrafts stage led to labour problems
   c) The villagers were jobless
   d) The beginning of the labour issues and evolving of the traders and merchants.

7. Arrange in the right order:
   A) Handicraft stage

Passage – 4

Direction (Q-Nos.1-8): Read the passage given below

Philosophy of Education is a label applied to the study of the purpose, process, nature and ideals of education. It can be considered a branch of both philosophy and education. Education can be defined as the teaching and learning of specific skills, and the imparting of knowledge, judgement and wisdom, and is something broader that the societal Institution of education we often speak of.

Many educationalists consider it a week and wooly field, too far removed from the practical applications of the real world to be useful. But philosophers dating back to Plato and the Ancient Greeks have given the area much thought and emphasis, and there is little doubt that their work has helped shape the practice of education over the millennia.

Plato is the earliest important educational thinker, and education is an essential element in “The republic “ (his most important work on philosophy and political theory, written around 360 B.C). In it, he advocates some rather extreme methods: removing children from their mothers’ care and raising them as wards of the state, and differentiating children suitable to the various castes, the highest receiving the most education, so that they could act as guardians of the city and care for the less able. He believed that education should be holistic, including facts, skills, physical discipline, music and art. Plato believed that talent and intelligence is not disturbed genetically and thus is found in children born to all classes, although his proposed system of selective public education for an educated minority of the population does not really follow a democratic model.

Aristotle considered human nature, habit and reason to be equally important forces to be cultivated in education, the ultimate aim of which should be to produce good and virtuous citizens. He proposed that teachers lead their students systematically, and that repetition be used as a key tool to develop good habits, unlike Socrates emphasis on questioning his listeners to bring out their own ideas. He emphasised the practical aspects of subjects taught, among which he explicitly mentions reading, writing,
mathematics, music, physical education, literature, history, and a wide range of sciences, as well as play, which he also considered important.

During the Medieval period, the idea of Perennialism was first formulated by St. Thomas Aquinas in his artwork “De Magistro”. Perennialism holds that one should teach those things deemed to be of everlasting importance to all people everywhere, namely principles and reasoning, not just facts (which are apt to change over time), and that one should teach about people, not machines or techniques. It was originally religious in nature, and it was only much later that a theory of secular perennialism developed.

During the Renaissance, the French skeptic Michel de Montaigne (1533-1592) was one of the first to critically look at education. Unusually for his first time, Montaigne was willing to question the conventional wisdom of the period, calling into question the whole edifice of the educational system, and the implicit assumption that university-educated philosophers were necessarily wiser than uneducated farm workers.

1. What is the difference between the approaches of Socrates and Aristotle?
   a) Aristotle felt the need for rote-learning; Socrates emphasised on dialogic learning.
   b) There was no difference
   c) Aristotle emphasised on the importance of paying attention to human nature; Socrates emphasised upon science.
   d) Aristotle felt the need for repetition to develop good habits in students; Socrates felt the need to be constantly questioned.

2. Why do educationists consider philosophy a ‘weak and woolly’ field?
   a) It is not practically applicable.
   b) Its theoretical concepts are easily understood.
   c) It is irrelevant for education.
   d) None of the above

3. The term ‘Perennialism’, in the context of the given comprehension passage refers to something
   __________.
   a) Which is quite unnecessary
   b) Which is of ceaseless importance
   c) Which is abstract and theoretical
   d) Which is existed in the past and no longer exists now.

4. Were Plato’s beliefs about education democratic?
   a) He believed that only the rich have the right
   b) He believed people are democratic
   c) He believed that only a select few are meant to attend schools
   d) He believed that all pupils are not talented.

5. Why did Aquinas propose a model of education which did not lay much emphasis on facts?
   a) Facts are not important.
   b) Facts do not lead to holistic education
   c) Facts change with the changing times
   d) Facts are frozen in time.

6. During which period was the education system focused on Religious nature?
   a) Ancient period
   b) Medieval period
7. During which period there was a shift from conventional education system?
   a) Aristotle period
   b) 360 B.C
   c) 1533-1592
   d) Medieval period

8. Which philosopher had felt that a blend of the theory and practical could be a better education for mankind?
   a) Plato
   b) Aristotle
   c) De Magistro
   d) Michel de Montaigne

Since its creation in the 17th Century, insurers have amassed policies in each class of risk they cover. Thanks to technology, insurers now have access to more information about the risks that individuals run. Car insurers have begun to set premiums based on how actual drivers behave, with “telematic” tracking devices to show how often they speed or slam on the brakes. Analysts at Morgan Stanley, a bank, predict that damage to insured homes will fall by 40-60% if smart sensors are installed to monitor, say, frayed electrical wiring. Some health insurers provide digital fitness bands to track policy holders vital signs – and give discounts if they lead a healthier life. But the data can only go so far. Even the safest driver can be hit by a falling tree: people in connected homes still fall off ladders. But the potential gains from smart insurance are large. First, giving people better insights into how they are managing risk should help them change their behaviour for the better. Progressive, an American car insurer, tells customers who use its trackers where they tend to drive unsafely; they crash less often as a result. Second, pricing will become keener for consumers. The insurance industry made $338 billion in profits last year. More accurate risk assessment should result in lower premiums for many policyholders. Third, insurers should be able to spot fraud more easily, by using data to verify claims.

Over the past 50 years, the US personal auto insurance market has not generally correlated to the economy.

But two worries stand out. One is a fear that insurers will go from being with to ones that watch your every move. The other, thornier problem is that insurers will cherry pick the good risks, leaving some people without safety net or to be taken care of by the state. Forgone privacy is the price the insured pay receiving personalised pricing. Many people are indeed willing to share the data, but individuals should always have to opt in to do so. Some worry that this safeguard may not be enough: the financial costs of not sharing data may be so great that people have no real choice over whether to sign up. The second concern is the worry that more precise underwriting will create a class of uninsurable people, selected out of insurers businesses because they are too high a risk.

1. Which of the following will be said about the insurance industry?
   a) It is not well regulated in Europe and America
   b) It is plagued by frauds on the part of the policy holders, who manipulate data.
   c) It faces challenges about the use of personal data.
   d) It requires bailouts from the government.
2. The insurers got their inception in the
   a) 16th century
   b) 17th Century
   c) 1870
   d) 1902

3. Which of the following is/ are outcome(s) of smart insurance?
   A. Create awareness about one’s behaviour

Reading Passage – 2 Case Based - Type – 2
Direction (Q-Nos, 9-14): Read the passage given below:
The Ganges is one of the largest rivers in Asia. It rises in the Himalaya Mountains and flows over 2500km through India and Bangladesh into the Bay of Bengal.
However, the Ganges, India’s holy river, is also one of the most polluted in the world. The Ganges River basin has a size of over 1 million square km. It lies in one of the most populous regions on earth. About 500 million people, half of India’s overall population, live in the Ganges river plains.
There are many causes of Ganges river pollution. About 2 million Hindus battle in the river every day. During religious ceremonies, up to a hundred million people clean their sins away in the Ganges River. They believe that bathing in the river will make them pure. In addition, thousands of bodies are cremated near the river, especially around the holy city, Varanasi. The ashes are often released into Ganges.
The Ganges also provides water for farming land, which is increasing at a tremendous rate. Irrigation projects cause water levels to go down along the river. More and more dams are being erected along India’s holy river, mainly to produce energy for Delhi and other large cities in the area.
The river flows through 30 cities with a population of over 100,000 each. Everyday, 3 billion litres of untreated water from these big cities pass into the Ganges River, along with remains of animals.
Ganges River Pollution: A case Study of Causes of Ganges River Pollution. Because of India’s lax environmental regulations, industries along the river release chemicals and other poisonous material into the Ganges. In some places they are a thousand times over the allowed limit. Especially India’s traditional leather industry needs great amounts of water. In addition, fertilizers from the fields find their way into the ground water, and ultimately flow into the river. Altogether, the amount of Industrial pollution has doubled in the past 20 years. This widespread pollution of the Ganges River has also led to major health problems. Many diseases are common, including cholera, hepatitis and diarrhoea.

While India’s population keeps growing, more and more people are leaving the countryside and moving to big cities along the Ganges. As a result, the river will not be able to cope with even more people. Life in the river is also at risk. Recent reports have shown that there is high a level of mercury in some fish. The construction of dams is destroying forests and vegetation, killing off many animals and plants. India authorities are fighting an upward battle towards cleaning up Ganges River. International organizations have offered help. The World Bank has agreed to give India a loan of up to a million dollars to clean up the Ganges River.

Reading Passage – 4 Case Study- Type – 2

Direction (Q-Nos, 9-14): Read the passage given below:

Manav Singh had been farming his land for the past 20 years. His father had also been farming in the same land. But now he is unable to irrigate the agricultural land as the ground water level has gone down and the monsoon rains are also irregular. He has an option to connect the cannaal irrigation that the Government has initiated but is finding it difficult to implement the process. He knows that Farmers world wide will need to increase crop production, either by increasing the amount of agricultural land to grow crops or by enhancing productivity on existing agricultural lands to meet the global demand.

However, the ecological and social trade-off of clearing more land for agriculture are often high, particularly in the tropics. And right now, crop yields the amount of crops harvested per unit of land cultivated are growing too slowly to meet the predicted demand for food. Even if some regions
increase their output and traders reduce the mismatch between supply and demand, doubling food production by 2050 will undeniably be a major challenge.

Thus the last resort for farmers, Manav Singh thinks would be to grow more on the land they currently operate through what is called “sustainable intensification”. This means using precision farming tools, such as GPS fertiliser dispenser, advanced irrigation systems, and environmentally optimized crop rotations. These methods can help produce more crop, especially in parts of Africa, Latin America and Eastern Europe with large yield gaps. They can also reduce the negative environmental impacts from over-stressing resources - preventing groundwater depletion and the destruction of fertile lands through over-use of fertiliser.

Net irrigated area (%) of India has increased from nearly 18 to 48% in recent times due to government interventions at various levels (Fig. 1). Although the government has given much emphasis on improving canal system in various five year plans but it has declined over years (Fig. 1). People have identified groundwater irrigation as much reliable and independent source of irrigation.

In order to attract more investments in agriculture, the risks need to be reduced by governments. Regulators need to overhaul policies that is affecting the inclusion of small, rural farmers into the financial system. More supportive policies, laws and public spending on infrastructure would help create a favourable investment climate for agriculture.

1. Which of the following pairs given in the options can conclude Paragraph 3 and start 4 respectively?

A. Over the last 30 years, investment in agriculture has declined resulting in low productivity and stagnant production.
B. Thus, as banking sectors in developing countries give fewer loans to farmers are bearing huge losses.
C. If we have to use methods extensively more agricultural research is needed which further highlights the need of investments in agriculture.

a) C-A
b) C-B
c) A-B
2. What does the author want to convey by, ‘would help create a favourable investment climate for agriculture’ as mentioned in the passage in the italics?
A. The climate conditions need to be improved to improve food production.
B. With supportive policies and laws investments in agriculture are likely to increase.
C. Lower returns in agriculture are the main reason behind low investment.
   a) Only A & C
   b) Only A & B
   c) Only B
   d) Only B & C

3. Which of the following is /are true according to passage?
   A. Paragraph 2 only highlights how food demand can easily be met in the near future.
   B. Rising food demand is likely to affect developed countries more severely than the developing countries.
   C. Increasing land under agriculture, can impact the ecology negatively.
      a) Only A & B
      b) Only B
      c) Only C
      d) Both A & C

4. What is the author’s view about sustainable intensification mentioned in paragraph 3?
   a) It is only useful for countries which have small yield gaps.
   b) It may increase food production to meet the rising demands.
   c) It will have a tremendous negative impact on the environment.
   d) It is hyped and may not work in the long run.

5. The graph indicates that the irrigation of agricultural land in India using canal system has
   a) Increased through the years
   b) Decreased through the years
   c) Equal all these years
   d) None of the above

6. Irrigation of agriculture land has increased in the recent years through:

Reading Passage – 5 Case Study- Type – 2

Direction (Q-Nos, 9-14): Read the passage given below:

On a walk through the Cubbon Park, in Bangalore, the statue of Queen Victoria has stood for a long period of 115 years. The flora and fauna of Cubbon park captures our attention more than anything else. But when you take time to look closely at the statue, you will marvel at its sheer grandeur. Sculpted by Sir Thomas Brock, the 11 feet high marble statue is larger than life. It brings out the personality of queen Victoria, who had been the monarch of Great Brittan from 1837 till 1901 depicting a rather proud, stern person with pronounced features.

The Statue of Queen Victoria in Bangalore shows the Queen wearing the Order of the Garter robes, which are decorated with tassels and roses. The Queen is carrying a sceptre and an orb with a cross.

Letter writing is the most common form of written communication; it is a means of connecting people. Letter writing is better than a telephonic conversation as it gives a deeper, better, and more creative expression of thought than a conversation on phone. The advent of digital communication like email has added to the popularity and usefulness of letters. Writing letters is an art which everyone must develop and master with continuous practice. Letters may be categorized into two major types:

- a. Informal or personal letters which we write to close friends and relatives
- b. Formal letters which include business letters or official letters for making enquiries, registering complaints, placing orders, asking for and giving information, and sending replies
- c. Letters to the editors of newspapers highlighting some social or political issue giving suggestions
- d. Applications for job

Key points for letters to the editors

- a. Begin with a reference to new events, recent developments, etc.
- b. Create a context for developing the content
- c. Give details of the subject matter, viz. the issue of child labour, its causes, effects, and possible ways to eliminate the same

Sub: Concern over rising level of noise pollution in the City - reg
Sir

Through the columns of your esteemed newspaper I wish to draw the attention of the concerned authorities towards the rising noise pollution in our cities.

Despite laws made by the government banning the use of loudspeakers and DJs after a particular time people seem to turn a deaf ear to what the government tells them. Marriage processions till late night in the middle of the cities and DJ’s loud music are all sources of noise which have an adverse effect on older and the ailing members of the society. Students are the main victims especially during examination days. Not only does it affect health of the people but also their behaviour. It causes elements like hypertension, insomnia, sleeplessness, hearing impairment and what not.

It all speaks volumes of well planning on the part of the government rules made must be implemented. It is hoped that this concern if published in your reputed newspaper will awake the authorities from their slumber and the needful will be done at the earliest possible.

Thanking you
Yours faithfully

**Multiple Choice Question- Flamingo Text**

**The Last Lesson - Alphonse Daudet**

Extract 1

When I passed the town hall there was a crowd in front of the bulletin-board. For the last two years all our bad news had come from there — the lost battles, the draft, the orders of the commanding officer — and I thought to myself, without stopping, “What can be the matter now?”

Then, as I hurried by as fast as I could go, the blacksmith, Watcher, who was there, with his apprentice, reading the bulletin, called after me, “Don’t go so fast, bub; you’ll get to your school in plenty of time!”

i. It is the general tendency of human being to stop wherever there’s crowd, it shows that they are _________
   a) Incurious 
   b) Inquisitive 
   c) Intuitive 
   d) Dawdler

ii. Why ‘there was a crowd in front of the bulletin board’?
   A. People had come to see what the news was.  
   B. People had come to discuss about the news.
iii. What was the motive of Blacksmith Wachter when he said, “Don’t go so fast, bub; you’ll get to your school in plenty of time!”?
   a) To ridicule Franz
   b) To boost the morale and make Franz comfortable
   c) To dominate little Franz
   d) To make him realize importance of his mother tongue

iv. Franz saw a huge crowd assembled in front of the bulletin board, but did not stop. How would you evaluate his reaction?
   a) Franz was too little to care about the news of lost battles
   b) Nobody in Franz’s family was in the army, so it did not matter
   c) Bad news had become very normal, so he went about his task
   d) It was too crowded for Franz to find out what news was up on the board

Extract 2
But now it was all so still! I had counted on the commotion to get to my desk without being seen; but, of course, that day everything had to be as quiet as Sunday morning. Through the window I saw my classmates, already in their places, and M. Hamel walking up and down with his terrible iron ruler under his arm. I had to open the door and go in before everybody. You can imagine how I blushed and how frightened I was.

But nothing happened. M. Hamel saw me and said very kindly, “Go to your place quickly, little Franz. We were beginning without you.”

i. What is the mental state of speaker here?
   a) Scared and reddened
   b) Ecstatic and reddened
   c) Tiresome and ecstatic
   d) None of these

ii. What was Franz banking on to enter the class as he was late?
   a) M. Hamel’s teaching on the blackboard
   b) commotion in the class
   c) Hauser helping him sneak in
   d) to quietly walk in when everyone was preoccupied with participles

   a) M. Hamel did not ask any questions on participles
   b) M. Hamel scold him
   c) M. Hamel made him stand outside the classroom
   d) Instead of scolding Franz M. Hamel put him at ease

Extract 3
Poor man! It was in honour of this last lesson that he had put on his fine Sunday clothes, and now I understood why the old men of the village were sitting there in the back of the room. It was because
they were sorry, too, that they had not gone to school more. It was their way of thanking our master for his forty years of faithful service and of showing their respect for the country that was theirs no more

i. Why does the narrator refer to M. Hamel as ‘Poor man’?
   a) He empathizes with M. Hamel as he had to leave the village.
   b) He believes that M. Hamel’s “fine Sunday clothes” clearly reflected that he was not rich.
   c) He feels sorry for M. Hamel as it was his last French lesson.
   d) He thinks that M. Hamel’s patriotism and sense of duty resulted in his poverty

ii. Choose the option that might raise a question about M. Hamel’s “faithful service”.
   a) When Franz came late, M. Hamel told him that he was about to begin class without him.
   b) Franz mentioned how cranky M. Hamel was and his “great ruler rapping on the table”.
   c) M. Hamel often sent students to water his flowers, and gave a holiday when he wanted to go fishing.
   d) M. Hamel permitted villagers put their children “to work on a farm or at the mills” for some extra money.

iii. Why were the old men sitting in the back of the room?
   a) As a mark of respect for the French master
   b) To honour Franz
   c) It was an inspection Day
   d) It was a gathering of the villagers

iv. Why was the country theirs no more
   a) It came under the dictator
   b) It was split
   c) It was captured by the Prussian army
   d) They left their country

Extract 4
On the roof the pigeons cooed very low, and I thought to myself, “Will they make them sing in German, even the pigeons?” whenever I looked up from my writing, I saw M. Hamel sitting motionless in his chair and gazing first at one thing, then at another, as if he wanted to fix in his mind just how everything looked in that little school-room. Fancy! For forty years he had been there in the same place, with his garden outside the window and his class in front of him, just like that.

i. Franz thinks - “Will they make them sing in German, even the pigeons?” What could this mean?
   a) German would use brutal force over everyone
   b) Harsh orders will be passed
   c) The people cannot be deprived of their essence
   d) The Germans will rob France of its language

ii. What does M. Hamel’s motionless posture reflect?
   a) The school is dismissed forever
   b) Sense of finality
   c) Changing order of life
   d) Feeling nostalgic

iii. What made Franz forget about M. Hamel's ruler and crankiness?
   a) Strange quietness
   b) Encroachment of Prussian soldiers drilling and marching
   c) He did not take his mother tongue seriously
   d) Thought of M. Hamel leaving forever

iv. What is the tone of the speaker in the first line?
   a) Full of pleasure
   b) Full of displeasure
   c) Full of rage
d) Full of contentment

Extract 5

Down there at the back of the room old Hauser had put on his spectacles and, holding his primer in both hands, spelled the letters with them. You could see that he, too, was crying; his voice trembled with emotion, and it was so funny to hear him that we all wanted to laugh and cry. Ah, how well I remember it, that last lesson!

All at once the church-clock struck twelve. Then the Angelus. At the same time the trumpets of the Prussians, returning from drill, sounded under our windows.

What was the Hauser crying for?

a) Because he had not taken his mother tongue seriously
b) Because M. Hamel was going to leave forever

Extract 3

Their fathers are as tired as they are. They talk endlessly in a spiral that moves from poverty to apathy to greed and to injustice. Listening to them, I see two distinct worlds— one of the family, caught in a web of poverty, burdened by the stigma of caste in which they are born; the other a vicious circle of the sahukars, the middlemen, the policemen, the keepers of law, the bureaucrats and the politicians. Together they have imposed the baggage on the child that he cannot put down. Before he is aware, he accepts it as naturally as his father. To do anything else would mean to dare. And daring is not part of his growing up.

i. “Their Fathers are as tired as they are” which figure of speech is used in this statement  
a) Metaphor  
b) Simile  
c) Alliteration

**Deep Water** – William Douglas

Extract 1
I landed in a sitting position, swallowed water, and went at once to the bottom. I was frightened, but not yet frightened out of my wits. On the way down I planned: When my feet hit the bottom, I would make a big jump, come to the surface, lie flat on it, and paddle to the edge of the pool. It seemed a long way down. Those nine feet were more like ninety, and before I touched bottom my lungs were ready to burst. But when my feet hit bottom I summoned all my strength and made what I thought was a great spring upwards. I imagined I would bob to the surface like a cork. Instead, I came up slowly.

The Third Level
1. Read the extract given below and answer the questions that follow.
The presidents of the New York Central and the New York, New Haven and Hartford railroads will swear on a stack of timetables that there are only two. But I say there are three, because I've been on the third level of the Grand Central Station. Yes, I've taken the obvious step: I talked to a psychiatrist friend of mine, among others. I told him about the third level at Grand Central Station, and he said it was a waking dream wish fulfillment. He said I was unhappy. That made my wife kind of mad, but he explained that he meant the modern world is full of insecurity, fear, war, worry and all the rest of it, and that I just want to escape.

1 What, according to the narrator, will the presidents swear on?
   A) the existence of the third level
   B) there being a stock of timetables
   C) the non-existence of a third level
   D) there being a second level
   Answer C

2. The phrase 'waking-dream wish fulfillment' means:
   A) we do not wish for something to happen
   B) we wake up suddenly from a dream
   C) we see something as we wish to see it
   D) our subconscious mind
   Answer C

3. Why was Charley's wife 'kind of mad'?
   A) to see her husband confused.
B) to hear that her husband was not happy.
C) as no one believed Charley about the third level.
D) due to Charley’s insistence on there being a third level.

Answer B

4 What does man in the modern world want to escape?
A) anxiety
B) suspicion
C) jealousy
D) indifference

[Answer A]

2. Read the extract given below and answer the questions that follow.
Sometimes I think Grand Central is growing like a tree, pushing out new corridors and staircases like roots. There’s probably a long tunnel that nobody knows about feeling its way under the city right now, on its way to Times Square, and maybe another to Central Park. And maybe — because for so many people through the years Grand Central has been an exit, a way of escape — maybe that’s how the tunnel I got into... But I never told my psychiatrist friend about that idea.

1 The above extract is NOT an example of ________.
A) allegory
B) analogy
C) imagery
D) metaphor

Answer A

2. Charley decided not to tell his psychiatrist friend about his idea. Choose the option that reflects the reaction Charley anticipated from his friend.

A) “That’s such a lovely comparison. Why don’t you become a writer, Charley?”
B) “Oh Charley. It is so sad to see your desperation to run away! So very sad.”
C) “Maybe that’s how you entered the third level. Who would have thought?!”
D) “You need help, my raving friend. You are way too invested in this crazy thought!”

Answer D

3. Look at the given expressions that lists some of the ways in which the symbolism of a tree is employed. Which of the following would represent an example as used by Charley in the above extract?

<table>
<thead>
<tr>
<th>Be Like a Tree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stay grounded</td>
</tr>
<tr>
<td>Connect with your roots</td>
</tr>
<tr>
<td>Bend before you break</td>
</tr>
<tr>
<td>Turn over a new leaf</td>
</tr>
<tr>
<td>Enjoy the view</td>
</tr>
<tr>
<td>Keep growing</td>
</tr>
</tbody>
</table>

A) ‘Stay grounded’ as the train station is underground.
B) ‘Connect with your roots’ as he desires to go back to his past.
C) ‘Enjoy the view’ as the station leads to all tourist sights of the city.
D) ‘Keep growing’ as the station keeps renovating and expanding.

Answer D

4. The idiom ‘feeling its way’ implies ______ movement.
   A) swift
   B) tentative
   C) circular
   D) disorganized

Answer B

3. Read the extract given below and answer the questions that follow.
Then I walked down another flight to the second level, where the suburban trains leave from, ducked into an arched doorway heading for the subway — and got lost. That’s easy to do. I’ve been in and out of Grand Central hundreds of times, but I’m always bumping into new doorways and stairs and corridors. Once I got into a tunnel about a mile long and came out in the lobby of the Roosevelt Hotel. Another time I came up in an office building on Forty-sixth Street, three blocks away. Sometimes I think Grand Central is growing like a tree, pushing out new corridors and staircases like roots.

1. Where did Charley get lost?
   A) on the third level
   B) after heading for the subway
   C) on the arched doorway
   D) on the suburban train station

Answer B

2. Charley’s statement ‘That’s easy to do’ means:
   A) it is easy to get lost in the third level
   B) it is easy to reach the second level
   C) it is easy to enter and exit the Grand Central
   D) it is easy to get lost in the Grand Central

Answer D

3. The word ‘bumping’ means the same as:
   A) omitting
   B) colliding
   C) missing
   D) skirting

Answer B

4. Why does Charley compare the station’s growth to a tree?
   A) it has many corridors and staircases
   B) because of its consistent extension
   C) it is an underground station
   D) it is very huge

Answer B

4. Read the extract given below and answer the questions that follow.
And maybe — because for so many people through the years Grand Central has been an exit, a way of escape — maybe that’s how the tunnel I got into... But I never told my psychiatrist friend about that idea. The corridor I was in began angling left and slanting downward and I thought that was wrong, but I kept on walking. All I could hear was the empty sound of my own footsteps and I didn’t pass a soul. Then I heard that sort of hollow roar ahead that means open space and people talking. The tunnel turned sharp left; I went down a short flight of stairs and came out on the third level at Grand Central Station. For just a moment I thought I was back on the second level, but I saw the room was smaller, there were fewer ticket windows and train gates, and the information booth in the centre was wood and old-looking.

1. Why does the narrator refer to Grand Central as an ‘exit’?
   A) it is the medium to go to other places
   B) it is a medium of escape

5. Read the extract given below and answer the questions that follow.
   To make sure, I walked over to a newsboy and glanced at the stack of papers at his feet. It was The World; and The World hasn’t been published for years. The lead story said something about President Cleveland. I’ve found that front page since, in the Public Library files, and it was printed June 11, 1894. I turned toward the ticket windows knowing that here — on the third level at Grand Central — I could buy tickets that would take Louisa and me anywhere in the United States we wanted to go. In the year 1894. And I wanted two tickets to Galesburg, Illinois. Have you ever been there? It’s a wonderful town still, with big old frame houses, huge lawns, and tremendous trees whose branches meet overhead and roof the streets. And in 1894, summer evenings were twice as long, and people sat out on their lawns, the men smoking cigars and talking quietly, the women waving palm-leaf fans, with the fire-flies all around, in a peaceful world.
1. What did the narrator want to make sure?
   A) he was not on the third level
   B) he was not on the second level
   C) he was on the third level
   D) the date printed on the newspaper was correct

   Answer: C

2. The word 'glanced' means the same as:
   A) looked down upon
   B) glimpsed
   C) gaped
   D) stared

   Answer: B

3. Why did Charley want to go to Illinois?
   A) in 1894 he could go anywhere in the United States
   B) it was easy to get there
   C) his friend Sam was there
   D) he could lead an idyllic life there

   Answer: D

4. What kind of life do the people of Illinois lead?
   A) comfortable
   B) relief
   C) tranquil
   D) wonder

   Answer: C

The Enemy

1. It was at this moment that both of them saw something black come out of the mists. It was a man. He flung up of the ocean - flung. It seemed, to his feet by a breaker. He staggered a few steps, his body outlined against the mist, his arms above his head. Then the curled mists hid him again.

1. Who are the two mentioned here?
   A) Dr. Sadao and his wife
   B) Dr. Sadao and his servant
   C) Dr. Sadao and another doctor
   D) Dr. Sadao and his daughter

   Answer: A

2. Who is the 'man' referred here?
   A) The white man
   B) Japanese soldier
   C) Japanese prisoner
   D) None of the above

   Answer: A
3. How did the man reach the shore?
A) Struggled to walk a few steps
B) Walked comfortably
C) Swam across
D) None of the above

Answer D

4. Why was the man not visible clearly?
A) The mist hid him
B) The sea hid him
C) The waves hit
D) None of them

Answer A

2. Now Sadao remembered the wound, and with his expert fingers he began to search for it. Blood flowed freshly at his touch. On the right side of his lower back Sadao saw that a gun wound had been reopened.

1. Whose wound is referred here?
A) The man from the sea
B) Dr. Sadao
C) Dr. Sadao's wife
D) The gardener

Answer A

2. Whose expert fingers is mentioned here?
A) Dr. Sadao
B) His wife
C) The doctor of the hospital
D) The master

Answer A

3. What had happened to the man?
A) He was hit by a rod
B) He was shot by a gun.
C) He was hurt
D) Due to an operation

Answer B

4. What happened when the Doctor was ready to give treatment?
A) The blood oozed out
B) The blood clotted
C) The blood drained out
D) None of them

Answer C

3. "The master ought not to heal the wound of this white man," he said bluntly to Hana. "The white man ought to die. First he was shot. Then the sea caught him and wounded him with her rocks. If the master heals what the gun did and what the sea did, they will take revenge on us."
1. Who said not to heal the wound?
   A) The old gardener
   B) Yumi
   C) Servant
   D) Hana

   Answer B

2. The 'sea caught' means:
   A) The sea has punished
   B) The sea has become friendly
   C) The sea has called him
   D) The sea had arrested

   Answer A

3. The speaker believed that:
   A) The sea would take revenge on them if they healed
   B) The sea would catch him
   C) The sea will shoot him
   D) All of the above

   Answer A

4. What had the sea done to the white man?
   A) It has punished the white man
   B) It has taken revenge on the white man
   C) It has shot the white man with a gun
   D) All of the above

   Answer B

   "If we sheltered a white man in our house we should be arrested and if we turned him over as a
   prisoner, he would certainly die," Sadao said. "The kindest thing would be to put him back into the sea."

   Hana said, But neither of them moved. They were started with a curious repulsion upon the inert figure.

1. Why will Dr. Sadao be punished for sheltering a white man?
   A) It was war time and he was from the enemy country
   B) He was a doctor
   C) He took the help of his wife.
   D) The servants left the job.

   Answer A

2. Which country did Dr. Sadao belong to?
   A) Germany
   B) India
   C) Japan
   D) France

   Answer C

3. Who is Hana?
   A) Gardener
B) Dr. Sadao’s sister
C) Servant
D) Dr. Sadao’s wife

Answer D

4. Why do you think they were repulsive?
A) It is because he was an enemy soldier
B) It is because he was bleeding
C) It is because he was not willing to take treatment
D) None of them

Answer A

SET - 1

CLASS: XII                          SUB: ENGLISH CORE (301)

TIME ALLOWED: 90 MINUTES.                   MAX. MARKS: 40

General Instructions:
1. This paper is divided into three parts:
   A- Reading
   B -Writing
   C-Literature
2. Each question has four possible answer a, b, c and d. Students are required to choose the most appropriate answer out of the four alternatives.
3. All Questions are compulsory.

SECTION- A (READING)

1. Read the passage given below.
(8X1=8)
1. All of Earth’s oceans share one thing in common “plastic pollution. When people litter, or when the trash is not properly disposed off, things like plastic bags, bottles, straws, foam and beverage cups get carried to the sea by winds and waterways. About 80 per cent of ocean plastic originates on land. The rest comes from marine industries such as shipping and fishing.
2. In 2015, engineer Jenna Lambeck at the University of Georgia and other researchers calculated that at least 8 million tons of plastic trash are swept into the ocean from coasts every year. That’s the equivalent of a full garbage truck of plastic being dumped into the sea every minute. If current trends in plastic production and disposal continue that figure will double by 2025. A report published by the World Economic Forum last year predicts that by 2050, ocean plastic will outweigh all the fish in the sea.
3. In today’s world, plastic is everywhere. It’s found in shoes, clothing, household items, electronic and more. There are different types of plastics, but one thing they all have in common is that they are made of polymers, large molecules made up of repeating units. Their chemical structure gives them a lot of advantages: they are cheap and easy to manufacture, lightweight, water-resistant, durable and can be molded into nearly any shape.
4. Sea turtles eat plastic bags and soda-can rings, which resemble jellyfish, their favourite food. Seabirds eat bottle caps or chunks of foam cups. Plastic pieces may make an animal feel full, so it doesn’t eat enough real food to get the nutrients it needs. Plastic can also block an animal's digestive system, making it unable to eat.

5. Scientists and its associated pollutants can even make it into our own food supply. Scientists recently examined fish and shellfish bought at markets in California and Indonesia. They found plastic in the guts of more than a quarter of samples purchased at both locations, in organisms that people eat whole, such as sardines and oysters that means we’re eating plastic too. In larger fishes, chemicals from plastic may seep into their muscles and other issues that people consume.

6. One way to keep the ocean cleaner and healthier is through clean-up efforts. A lot of plastic waste caught in ocean currents eventually washes up on beaches. Removing it prevents it from blowing out to sea again. Beach clean-up is ocean clean-up.

7. Clean-up efforts can’t reach every corner of the ‘ocean or track down every bit of micro-plastic. That mean it’s critical to cut down all the amount of plastic that reaches the sea in the first place. Scientists are working towards new materials that are safer for the environment. For example, Jambeck and her colleagues are currently testing a new polymer that breaks down more easily in seawater.

**Based on your understanding of the above passage, answer the given questions by choosing the most appropriate word.**

1. **Percentage of ocean plastic that originates from land is**:
   - a) 20%
   - b) 50%
   - c) 80%
   - d) 25%

2. **Plastic is that biodegradable because it is made up of**:
   - a) Low Atomic particle
   - b) Tiny particles
   - c) Strong big particle
   - d) Large molecule polymers

3. **Scientists bought fish and shellfish for examination at markets in**:
   - a) China and Russia
   - b) Pakistan and Afghanistan
   - c) California and Indonesia
   - d) Australia and Brazil

4. **Which properties make great plastics for consumer goods**
   - a) Biodegradability
   - b) Durability
   - c) The dyes and flame retardation
   - d) Ability of chemical absorption

5. **What is the ultimate way to clean-up an ocean?**
   - a) The beach – clean up
   - b) Ban of plastic items
   - c) Prohibition of seabirds
   - d) No food supply in surrounding area
6. How are the larger fish affected by plastic?
   a) They can get entangled in plastic netting
   b) Plastic may lead them to starvation
   c) Plastic is found in their guts
   d) Plastic may go into their muscles and other tissues

7. Which features do all kinds of plastics have?
   a) Easy to manufacture and easy to dispose
   b) Water resistant
   c) Difficult to mould into any shape
   d) Non-durability

8. What is the biggest impact of plastic pollution on sea life?
   a) Plastic eating makes them feel full
   b) Plastic blocks the animals’ digestive system
   c) Plastic cuts sea animal’s skin
   d) All of these

2. Read the passage given below and answer following questions.
   (6X1=6)

1. The India has the highest population growth rate in the world. Already the second most populous, it is expected to grow by 25% by 2036 according to the National Commission on Population. The growth rate wasn’t always like this. In 2011-2020 decade, the growth rate slowed down to 12.2% almost half of what was projected, with further deterioration in the 2021-31 decade to around 8.4%. According to the projections, India likely overtake China as the most densely populated country in the world by 2031 making every fifth person the world, an Indian.

2. There are many reasons as to why this is. To be specific, increase in the birth rate and a decrease in the death rate, higher life expectancy due to advancements in medical technology and practices, better family planning methods.

3. Unemployment and poverty are the chief effects of this phenomenon. Usually, if the population increases the number of jobs and the employment rate increases. But in the case of India, the lack of opportunities and resources has been progressively troublesome. Around 31% of Indians live in urban settlements- which is slated to increase to 39% by 2036. Historically, when the population of a city increases so much in such a short time, the quality of life drastically reduces. That is, unless the city’s administration is capable to cater to the incoming immigrant and their needs, it will surely be a sorry state of affairs.

4. Over the last couple of decades, the fall in the population rate can be attributed in part to the falling fertility rates in women. In 2011, the average TFR (Total Fertility Rate) was 3.5 and 3.7 for women from UP and Bihar respectively. Whereas in the south like Kerala and Andhra Pradesh have TFRs below 2. Expert suggest that TFRs will continue to fall, eventually ending up at 1.73 by 2036. This coupled with the death rate increasing from 7.2 to 7.3, with a net loss in the population –the numbers fall.
5. While yes, it might seem that the population growth rate is falling momentarily, it will most definitely not be the case in the future. With advancement in technology, there will be a stark difference in the quality of life experienced by the people, and with this comes newly generated demand for a skilled workforce. This will ultimately feed back into itself and decrease the death rate and the increase the birth rate in the country. Is this a good thing, or should we be worried about this? You decide.

9. The growth rate wasn’t always like this. This statement means:
   a) The rate was faster before and has now spiked up
   b) The rate was faster before and has now slowed down
   c) The rate was fast and has remained the same
   d) None of these

10. In the year 2031, India is like to:
   a) Become the most popular
   b) Become the most prosperous
   c) Become the most populous
   d) Become the most pretentious

11. The contributing factors to population growth rate slowing down are:
   a) Increase in birth and decrease in death rate
   b) Advancement in medical technology and practices
   c) Better family planning methods
   d) All of these

12. Why does population explosion affect India in a different way?
   a) The cities are overcrowded
   b) There is a dearth of opportunities
   c) There is scarcity of sufficient resources
   d) All of these

13. The quality of life decreases dramatically in a city due to the inefficiently of the city’s administration.
   a) Partially incorrect
   b) Totally incorrect
   c) Partially correct
   d) Totally correct
14. The growth of the technology will help in .......... 
   a) Increasing skill level in people
   b) Increasing the number of educated people
   c) Increasing the quality of life of people
   d) None of these

The first merit list for undergraduate degree courses was announced on August 17 and students whose names appeared in the list have time until August 25 to confirm their seats.

The second merit list for colleges affiliated with the University of Mumbai (MU) is scheduled to be released after two days. However, the popular city colleges said they have very few seats left to offer, even though the number of seats across colleges is higher than the number of students registered for admissions this year.

“Due to the fear of not getting another seat, most students’ allotted seats in the first round, have confirmed admissions. We will have very few seats left for the second list,” said Ashok Wadia, Principal of Jai Hind College, Churchgate.

“Since the entire process is taking place online again this year, many students are worried as they can’t clear doubts face-to-face. We get calls all day from anxious students, and try our best to help everyone,” said the principal of a suburban college. She added that while students are confirming admissions, for now, there’s a chance of seats in B.Sc courses going vacant once admissions to medical, dental and paramedical courses begin.

Earlier this month, the state government released circular addressing it to state universities and the respective affiliated colleges, stating that due to a higher number of students clearing class 12 exams this year, automatically increasing the number of candidates applying for admissions, colleges have been given the option to add an extra division to certain popular courses to accommodate all students.

“Adding a new division will not be an easy task for colleges. While this can be managed while classes are online, soon colleges will reopen and then colleges will grapple with infrastructure constraints,” said TA Shiware, speaking for the management of Wilson College. He is also the chairman of the Mumbai Association of Non-Government Colleges.

On the basis of your understanding of the passage, answer the questions given below:

1. Varsity on the title indicates:

   b. 22 August
   c. 27 August
   d. 25 August

3. The students in the first list can get admission only within:
   a. a week
   b. a fortnight
   c. a month
   d. two days

4. The students are worried regarding online admission process as
   a. They are unable to submit original certificates timely
   b. The fee charges are too much
   c. They have many quarries regarding the admission guidelines
5. **In B Sc courses almost all admissions are:**
   a. vacant
   b. confirmed (for now)
   c. confirmed securely for the whole session
   d. vacant but soon be filled

6. **Jai Hind Collage is**
   a. In Churchgate
   b. In Mumbai
   c. Affiliated with the University of Mumbai
   d. All of the above

7. **The State Government of Maharashtra has passed a circular**
   a. to help students to get seat in the collages
   b. to be strict regarding increase in collage seats
   c. warning the poor result due to corona pandemic
   d. for state schools as well as state collages

8. **Shreya Bhandary is**
   a. the principal of Netaji Collage
   b. state govt’s spokesperson
   c. from Wilson collage
   d. a reporter

**Monsoon normal for now, despite a ‘break’**
By Abhishek Jha, Hindustan Times, New Delhi
PUBLISHED ON AUG 25, 2021 02:21 AM IST

- The June-September period is considered as the monsoon in India. Cumulative monsoon rainfall as of 8:30 AM on August 21 was 5.07% less than the Long Period Average or LPA, according to the gridded rainfall dataset of the India Meteorological Department (IMD).

  - **Cumulative rainfall continues to be in normal range**
  - The June-September period is considered as the monsoon in India. Cumulative monsoon rainfall as of 8:30 AM on August 21 was 5.07% less than the Long Period Average or LPA, according to the gridded rainfall dataset of the India Meteorological Department (IMD). A 5% deficit from LPA is considered to be in the normal range. IMD defines the average of rainfall in the 1961 to 2010 period as the LPA for that interval. It considers less than 20% deviation on either side of the LPA as normal; a surplus of 20% or more as excess; and a deficit of 20% or more as deficient.
Although the cumulative rainfall continues to be in the normal range, there have been periods of prolonged dry patches. There was a 47% surplus in cumulative rainfall before a dry patch from June 21 to July 11 -- when daily rainfall was less than the LPA on all days -- created a deficit of 3% in cumulative rain. After a period of recovery that led to a 2% surplus on August 1, another 16-day dry patch from August 2 to August 17 created the current 5% deficit.

**On the basis of your understanding, answer these questions;**

**9. Before the dry patch from June 21 to July 11 the rain was __________:**
   a. normal  
   b. less  
   c. surplus nearly 50 percent  
   d. less nearly 20 percent

**10. On August 21 the rainfall in India was ______________:**
   a. in convince with LPA  
   b. less than LPA  
   c. More than LPA  
   d. Not calculated by anyone

**11. Average of rainfall in the 1961 to 2010 period is___________:**
   a. Long Term Average  
   b. Last Term Average  
   c. Long Term Advantage  
   d. Long Term Absence
12. The North West India is facing ___________
   a. departure from LPA in August
   b. deficiency of nearly 80 percent
   c. the deficiency varied from 60 percent to 99 percent
   d. all of the above

13. North Maharashtra has ___________
   a. received less rain
   b. faced excess rain
   c. no rain
   d. none of the above

14. North Chhattisgarh has got ___________
   a. large excess of rain
   b. no data related to this area pertaining to rainfall
   c. deficiency of rain
   d. extreme dryness

15. Which one does not fall in the category of a ‘Classified Advertisement’?
   a. TO LET
   b. SOCIAL EVIL ERADICATION
   c. LOST and FOUND
   d. OBITUARY

16. In a classified advertisement abbreviations, contact address and mo. number are
   a. much needed
   b. optional
   c. unwanted
   d. never used

17. A similar character of a notice and a classified advertisement is
   a. Both are Brief and have word limit
   b. Both have date mentioned

1. Read the passage given below. (8X1=8)

(1) Millions of people in the United States are affected by eating disorders. More than 90% of those afflicted are adolescents or young adult women. Although all eating disorders share some common manifestations, anorexia nervosa, bulimia nervosa, and binge eating each has distinctive symptoms and risks. People who intentionally starve themselves (even while experiencing severe hunger pangs) suffer from anorexia nervosa.

(2) The disorder, which usually begins around the time of puberty, involves extreme weight loss to at least 15% below the individual’s normal body weight. Many people with the disorder look emaciated but are convinced they are overweight. In patients with anorexia nervosa, starvation can damage vital organs such as the heart and brain. To protect itself, the body shifts into slow gear: Menstrual periods stop, blood pressure rates drop, and thyroid function slows. Excessive thirst and frequent urination may occur. Dehydration contributes to constipation, and reduced body fat leads to lowered body temperature and the inability to withstand cold. Mild anemia, swollen joints, reduced muscle mass, and light-headedness also commonly occur in anorexia nervosa.

(3) Anorexia nervosa sufferers can exhibit sudden angry outbursts or become socially withdrawn. One in ten cases of anorexia nervosa leads to death from starvation,
cardiac arrest, other medical complications, or suicide. Clinical depression and anxiety place many individuals with eating disorders at risk for suicidal behavior.

(4) People with bulimia nervosa consume large amounts of food and then rid their bodies of the excess calories by vomiting, abusing laxatives or diuretics, taking enemas, or exercising obsessively. Some use a combination of all these forms of purging. Individuals with bulimia who use drugs to stimulate vomiting, bowel movements, or urination may be in considerable danger, as this practice increases the risk of heart failure. Dieting heavily between episodes of binging and purging is common.

(5) Because many individuals with bulimia binge and purge in secret maintain normal or above normal body weight, they can often successfully hide their problem for years. But bulimia nervosa patients—even those of normal weight can severely damage their bodies by frequent binge eating and purging. In rare instances, binge eating causes the stomach to rupture; purging may result in heart failure due to loss of vital minerals such as potassium. Vomiting can cause the esophagus to become inflamed and glands near the cheeks to become swollen. As in anorexia nervosa, bulimia may lead to irregular menstrual periods. Psychological effects include compulsive stealing as well as possible indications of obsessive-compulsive disorder, an illness characterized by repetitive thoughts and behaviors. Obsessive compulsive disorder can also accompany anorexia nervosa. As with anorexia nervosa, bulimia typically begins during adolescence. Eventually, half of those with anorexia nervosa will develop bulimia. The condition occurs most often in women but is also found in men.

(6) Binge-eating disorder is found in about 2% of the general population. As many as one-third of this group is men. It also affects older women, though with less frequency. Recent research shows that binge-eating disorder occurs in about 30% of people participating in medically supervised weight-control programs.

(7) This disorder differs from bulimia because its sufferers do not purge. Individuals with binge eating disorder feel that they lose control of themselves when eating. They eat large quantities of food and do not stop until they are uncomfortably full. Most sufferers are overweight or obese and have a history of weight fluctuations. As a result, they are prone to the serious medical problems associated with obesity, such as high cholesterol, high blood pressure, and diabetes.

(8) Obese individuals also have a higher risk for gallbladder disease, heart disease, and some types of cancer. Usually they have more difficulty losing weight and keeping it off than do people with other serious weight problems. Like anorexic and bulimic sufferers who exhibit psychological problems, individuals with binge-eating disorder have high rates of simultaneously occurring psychiatric illnesses, especially depression.

On the basis of your understanding of the above passage, find out the correct options of the questions. (1 × 8 = 8)

2. Read the passage given below and choose the correct options of the questions. (6X1=6M)
   1. Technology has advanced tremendously and has taken control of our daily lives. Every household has at least one television set, laptop or desktop. It is not an uncommon sight to see kids playing with smart phones or tablets nowadays. We cannot deny how much Technology has helped us, but are we exposing ourselves and our children to too much of it?
   2. There has been much research and plenty of debate among educators, policymakers, pediatricians and parents on the benefits and advantages of technology over the years. The kids are able to talk to friends and family who are far away. They enhance your child’s curiosity and encourage him to explore from the safety of your home. Pushing keys and using the mouse help in fine-tuning your child’s fine motor skill which enhances their eye-hand coordination. Studies carried out by independent researchers have found that the use of technologies could support home learning.
However, technological interactivity can never replace human interaction as current technology cannot replace human element of interaction between parent and child. The technology may affect the pre-scholars’ developing cognitive and social skills. The extensive use of tablet computers does not encourage innovative learning. It also increases aggressive responses from playing violent video games. As mentally stimulating as they are, technological devices do not promote physical stimulation as much as physical activity. The responses received from parents and teachers during the survey conducted have been depicted in the form of pie diagram.
